PROFILE

Passionate and detail-oriented Software Developer with expertise in various programming languages and frameworks. Skilled in creating efficient software solutions and committed to delivering top-notch work. Thrives in dynamic environments, leveraging technical know-how to solve complex problems. Experienced in front-end development, adept at integrating diverse technologies for user-friendly applications. Excels in teamwork, understanding project needs, and delivering innovative solutions that surpass expectations.

WORK EXPERIENCE

Fornt-End Devleoper - Instructor

Quiad College

July 2023 - **Present**

- Develop and maintain scalable and efficient web applications, ensuring high performance and usability
- Design and implement front-end user interfaces using HTML, CSS, and JavaScript frameworks like React or NextJS.
- Completed an intensive software development bootcamp focused on modern programming languages, frameworks, and development methodologies.
- Acquired practical skills in front-end and back-end development through hands-on projects and assignments.
- Perform code reviews, debugging, and troubleshooting to maintain and improve application functionality and performance.
- Gained practical experience in database management using technologies such as MongoDB ,and Firebase.
- Collaborate with cross-functional teams, including product managers, designers, and other developers, to deliver projects on time and within scope.
- Implement and maintain version control systems (e.g., Git) to manage the codebase and facilitate team collaboration.
- Stay updated with emerging technologies and industry trends to continuously improve development practices and stay at the forefront of the field.
- Conduct thorough testing and quality assurance to identify and fix bugs, ensuring a smooth and error-free user experience
- Provide technical support and assistance to stakeholders, addressing any issues or concerns related to the applications developed.
- Demonstrated adaptability and resilience in a fast-paced learning environment, consistently meeting deadlines and exceeding expectations.
- Actively participated in workshops, seminars, and coding challenges to further enhance skills and knowledge in software development.

Lahore, Pakistan

EXPERTISE

- Proficiency in HTML, CSS, and JavaScript to create visually appealing and responsive user interfaces.
- Experience with front-end frameworks and libraries like React, Next.JS for building dynamic web applications.
- Intermediate Interaction With back-end programming languages such as Node.Js
- Interaction With database management systems(e.g., MongoDB, Firebase)
- Ability to connect front-end and back-end systems through RESTful APIs, ensuring seamless data exchange and communication.
- Familiarity with cloud platforms like AWS, or Google Cloud for deploying and scaling applications.
- Proficiency in using version control systems like Git for code management and collaboration with other developers
- Basic Knowledge Of React Native and Expo for App Development

WORK EXPERIENCE

Fornt-End Devleoper

EasyStay Inc.

Dec 2022- May 2023

- Develop and implement scalable and efficient web applications using a variety of technologies, frameworks, and programming languages.
- Design and create responsive user interfaces using HTML, CSS, and JavaScript frameworks like React & Next JS.
- Develop and maintain database, ensuring data integrity and optimal performance.
- Document technical specifications, architectural designs, and project milestones to facilitate effective collaboration and knowledge sharing.
- Troubleshoot and debug issues, identify and implement solutions in a timely manner.
- Perform code reviews, offer constructive feedback, and collaborate with team members to improve code quality and maintainability.

Junior Software Engineer

Native Developer

FEB 2022 - JUN-2022

- Supported the implementation of front-end functionality and interactivity using Flutter framework and Dart language
- Participated in code reviews to learn and improve coding practices, adhering to coding standards and best practices.
- Actively engaged in learning and self-improvement, seeking opportunities to expand technical skills and knowledge.
- Participated in code reviews, offering feedback and suggestions to improve code quality and maintainability.
- Supported the implementation of RESTful APIs and backend functionality using Firebase.

FAWAD AHMAD

FRONT-END DEVELOPER

TO WHOM IT MAY CONCERN,

I am writing to express my keen interest in the position of experienced frontend developer at your company. With my strong background in frontend technologies, particularly in React.js and Next.js, I am confident that I would be a valuable asset to your team. Over the past 2 years, I have honed my skills in React.js and Next.js development, possessing a deep understanding of building responsive and interactive user interfaces. From crafting intricate UI components to optimizing performance, I have consistently delivered exceptional results throughout my career.

As a frontend developer, I excel in collaborating with design teams to translate project requirements into elegant and user-friendly interfaces. I have a proven track record of successfully implementing design specifications while ensuring the scalability and maintainability of the codebase.

Moreover, my strong problem-solving skills and attention to detail have allowed me to troubleshoot and debug complex frontend issues efficiently. I am well-versed in conducting thorough testing and code reviews to ensure the reliability and performance of frontend applications.

Additionally, my experience in Agile methodologies, such as Scrum, has equipped me with the ability to work collaboratively in fast-paced environments, adapting to changing priorities and delivering results iteratively.

At your company, I am particularly drawn to the opportunity to work on challenging frontend projects and contribute to a team of talented professionals who share a passion for excellence. I believe that my technical expertise, combined with my dedication to continuous learning, would make me a valuable contributor to your team's success.

Thank you for considering my application. I would welcome the opportunity to discuss further how my frontend development skills and experience align with the goals of the company.

Thank you for your time and consideration.

SINCERELY,

FAWAD AHMAD
